## PROFILE

**Frontend Developer** with **4+ years of experience** in designing and developing scalable **enterprise web applications** using Angular 14. Strong expertise in TypeScript, JavaScript (ES6+), RxJS, Reactive Forms, REST API integration, and performance optimization. Experienced in building responsive, secure, and high-performance applications in Retail and Insurance domains. Proficient in Agile (Scrum) methodology, modular architecture, and component-driven development.

## SKILLS

*Frontend Technologies:* **Angular 14**, TypeScript, **JavaScript (ES6+)**, HTML5, CSS3, SCSS, Bootstrap.

*Core Concepts:* RESTful APIs, HTTP Client, Reactive Forms, Routing, Lazy Loading, JWT Authentication, Dependency Injection

*Version Control:* **Git, Github**

*Tools:* VS Code, Postman, Chrome DevTools, Figma

*Other:* **Agile (Scrum) Methodologies**, SDLC, Problem Solving, Data Structure & algorithms, Python 3.8, Node Js

## EXPERIENCE

Tata Consultancy services

*Indore, India*

**System Engineer**

*2021 – Present*

**(Angular 8, TypeScript, RxJS, REST APIs, Bootstrap, Git)**

- Designed and developed scalable front-end architecture using Angular 8 for a Retail Management platform handling inventory, order processing, and user management modules.
- Built reusable and modular UI components to improve maintainability and reduce development effort by approximately 20%.
- Implemented Reactive Forms with custom validators for dynamic product and order workflows.
- Integrated RESTful APIs using Angular HttpClient and implemented centralized error handling using HTTP interceptors.
- Implemented role-based authentication using JWT and Angular Route Guards to secure application routes.
- Improved initial page load time by implementing Lazy Loading and optimized change detection strategies.
- Collaborated with backend and QA teams in Agile sprint cycles to ensure timely feature delivery.
- Actively resolved production defects and enhanced UI responsiveness across desktop and mobile devices.

**(Angular 14, JavaScript, HTML, CSS, REST APIs, Git)**

- Developed dynamic and responsive UI modules for policy issuance, renewal, claims processing, and customer dashboards.
- Implemented CRUD operations and business workflows using Angular Reactive Forms and modular architecture.
- Designed structured routing modules for scalable and maintainable application design.
- Optimized user experience by improving UI performance and ensuring cross-browser compatibility.
- Participated in requirement analysis and converted business requirements into functional UI components.
- Delivered enhancements and bug fixes within defined sprint timelines, ensuring application stability.

## EDUCATION

**Samrat Ashok Technological Institute**

*Vidisha, India*

Bachelor of Technology (B.Tech) in Computer Science And Engineering (7.1 CGPA)

*08/2017 – 06/2021*

## CERTIFICATIONS

- Data Structures and algorithms by codeHelp – Nov 2023
- Problem Solving by hackerRank – Jan 2022
- Python Certification by hackerRank – Jun 2021
